

28 & 29 February 2024

1st INTERNATIONAL CONFERENCE 2024

VERTICAL FARMING IN CONTROLLED CHAMBERS (VFCE)

A guarantee of healthy, nutritious food

the CONFERENCE

Dear enthusiasts of sustainable agriculture and food innovation,

We are delighted to invite you to a series of exciting presentations and debates, exploring two key pillars for the future of our food: agriculture and food, followed by agriculture in controlled environments. Over two stimulating days, we'll delve into these exciting fields to discover how they are already shaping, and will continue to shape, the way we farm, feed ourselves and make our territories more resilient, while preserving our planet.

The conference will bring together international innovative minds, key experts, farmers and stakeholders in agriculture to discuss the crucial issues facing farmers today and how they should anticipate future challenges. We will also explore how controlled environment agriculture is emerging as a promising solution, complementary to traditional agriculture, offering new perspectives and answers to today's challenges.

This two-day event is designed to be a place of exchange, discovery and collective reflection, where you'll have the opportunity to meet agricultural visionaries, take part in cutting-edge discussions and learn more about the latest advances in these innovative fields.

Morning

8H30
9h00

HOME COFFEE

9H00
10H00

Conference 1

What will be the food supply of the 21st century ?

10H00
11H00

Conference 2

Can conventional agriculture, complemented by VFCE, meet the challenges of the 21st century?

11H00
12H00

Conference 3

The 3S of VFCE (Simple, Healthy, Tasty)

12H00
12H30

Debate

Can modern agriculture, including VFCE, guarantee consumers abundant, enjoyable and healthy food?

Afternoon

12H30
14H00

LUNCH IN THE HOTEL

Conference 4

What concrete and fundamental changes (technological, structural: new organizations, new sectors, new business models, etc.) is agriculture moving towards?

14H00
15H00

Conference 5

How do farmers perceive consumer expectations and changes in their own business?

15h00
16h00

Conference 6

How do researchers integrate the food and environmental demands of the general public into their varietal creation objectives ?
How VFCE may contribute to reach their targets ?

16h00
17h00

Debate

What is changing in the agricultural world today to guarantee consumers pleasure, health, traceability and abundance? What will tomorrow's weak signals be the strong ones?

17h00
18h00

DINNER IN HOTEL

Morning

Conference 7

9H00

10H00

The story of vertical plant cultivation is a long one
in the long term

Conference 8

10H00

11H00

How will vertical plant production in controlled
environments help agriculture meet the challenges
of abundant, healthy, nutritious food?

Conference 9

11H00

12H00

The exemplary nature of Japan's vertical production chain

Debate

12H00

12H30

Can vertical farming become part of the economic model
for the agricultural sector?

What does the future hold for vertical farming worldwide,
in Europe and in France?

Afternoon

LUNCH IN THE HOTEL

12H30

14H00

Conference 10

14H00

14H30

Vertical farming in controlled enclosures (VFCE) :
an opportunity
for medicinal plants

Conference 11

14H30

15H00

VFCE :
a new offering for mushrooms
and edible flowering plants.

Conference 12

15H00

15h30

Speed breeding short-day crops
by LED-controlled
light schemes.

Debate

15h30

16h30

Why VFCE Development
Is it inevitable?

16h30

17h00

CLOSING

FORMULE

RUCK HOTEL
345 Av. Jean Jaurès, 69007 Lyon (FRANCE)

CONFERENCES & DEBATES (during 2 days)

1 HOTEL NIGHT
PARKING

A WELCOME DRINK
2 BREAKFASTS
2 LUNCHESS (DRINKS INCLUDED)
1 DINNER (DRINKS INCLUDED)

1 PRESENT FOR EACH ATTENDANT

RATE : 800€ HT (960€ TTC)
